This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

GENERAL HEAD QUARTERS, STATE OF CONNECTICUT.

ADJUTANT-GENERAL'S OFFICE,
Hartford, December 10th, 1864.

BY the Resolutions of the General Assembly directing the publication of a roll of Connecticut Volunteers, it is provided that ONE COPY shall be furnished to the FIRST SELECTMAN and ONE COPY to the TOWN CLERK of each town.

This Catalogue will therefore constitute a part of the public records of the town, and each Selectman and each Town Clerk who shall receive a copy will carefully preserve the same, and whenever he shall retire from his position WILL HAND IT OVER TO HIS SUCCESSOR IN OFFICE.

HORACE J. MORSE,
ADJUTANT-GENERAL.

PREFACE.

THE names of all volunteers reported to this office are given in this catalogue, together with casualties up to July 1st, 1864.

In some instances the roll may be imperfect, and volunteers improperly reported from the fact that the returns received at this office after the organizations entered the field are not in all cases complete. It is also probable that men are here reported as deserters, who are not actually and intentionally guilty of that crime. Soldiers upon furlough on account of wounds or sickness are often unable to return to their commands on expiration of furlough, but report at a United States Hospital or other proper locality. From the fact that notice of their so reporting is not received by their regimental or company commanders, the men are borne on the company rolls as deserters.

The names of drafted men held to service, and substitutes accepted under the draft of 1863, will not be found in the catalogue unless they actually reached the regiments to which they were assigned, and are taken up on the regimental rolls received at this office.

In the 1st Artillery, 1st Light Battery, 1st Cavalry and Infantry regiments, up to and including the Thirteenth, a large number re-enlisted under the orders of the War Department prior to the expiration of their original term of service, and the remark "re-enlisted as a veteran——186" is here borne opposite their names on the rolls of the first enlistment. Although on the records of the office the names have been transferred to new roll books, it is not deemed necessary to repeat them in the catalogue. In many cases however the men are credited to a different locality on their

Digitized by Google

re-enlistment from that stated at their first enlistment. The town here given as the volunteer's residence is that from which he originally enlisted.

It is not expected that the catalogue can be used as a basis to show the actual credits to the several towns.

The rank given officers in the column of remarks where they have been promoted, is that held on the first of July, 1864, if then in service, or at the date of discharge, if discharged prior to that term. The intermediate grades held by officers who have been several times promoted are not stated on account of the necessarily limited space for remarks. This information is given in the Register of Commissioned Officers in the several reports from this Department.

A portion of the colored men who were accepted as drafted men or substitutes under the draft of 1863, were assigned to the 14th R. I. Heavy Artillery, as at that time there was no organization of colored men in the field from Connecticut. A list of these men is inserted. The remainder were detained on duty at Draft Rendezvous, New Haven, Ct., until the organization of the 30th Regiment Connecticut Volunteers, (Colored,) and were then assigned to that regiment.

ADJUTANT-GENERAL'S OFFICE,

HARTFORD, December 10, 1864.
